[Redacted]

Dear Mr. Buttinger:

Mr. Dulles has asked me to acknowledge and thank you very much for your letter.

We have read your thoughtful comments with interest and appreciate your courtesy in writing to us.

Sincerely,

Signed

Hon. Allen W. Dulles,
Director C. I. A.,
Washington, D.C.

Dear Mr. Dulles:

A U. S. stockpile of 100 Hydrogen-Cobalt bombs or warheads could be the ultimate war deterrent or final retaliatory weapon. Russia may already have such a stockpile.

To produce permanent peace, since neither U. S. or Russia intends or dares to disarm, and since in all past history all arms races have led to wars, the following is suggested:

The 10,000 top U. S. officials and the 10,000 top Russian officials would send their sons or grandsons to the opposite country for 2 to 4 years of highschool or college schooling, the respective governments to finance these scholarships.

The result of several such exchanges would be as follows: Gradual disappearance of most mutual suspicions; an approach toward our ideology of the Russian ideology, since "Classes" are already forming in Russia; these children would act as automatic "hostages for peace", since, obviously, neither government would bomb the other country in a surprise attack, thereby killing their own children in the opposite country. The ancient emperors used to thusly send their oldest sons and heirs as hostages and for their education to the court of their most powerful neighbor.

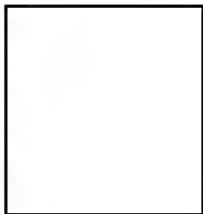

Our economy needs two things: A "Buy American" drive in all Labor newspapers to start with, followed by similar page ads in the big city dailies. The only true reason for our lagging economy is, of course, the ruinous excessive foreign imports, against which no adequate tariff protection now exists, and which have ruined or nearly ruined, entire American industries. Secondly, half a million additional immigrants per year, in families of four or five, couples with two or three children, so that the father-producer will produce LESS than the 4 or 5 family members will consume, thereby absorbing considerable of our surplus productive capacity and production.

Foreign Aid: We should appropriate the same as now, for propaganda purposes, same as Russia does, but we should actually PAY OUT only about half of the appropriated amount each year, thereby slowing the gold-dollar loss. We should ask West Germany to pay us back \$ 800,000,000, pay it to US, not to Lumumba & Co., so that we can reduce OUR people's taxes.

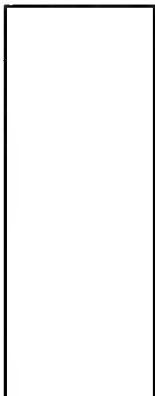

I had the honor of corresponding with the late John Foster Dulles, Senator Arthur Vandenberg and, recently, Vice President Richard Nixon. I greatly admire your work, and your comments, if permissible, would be greatly appreciated.

With all best wishes,

yours very sincerely

Alfred Ettinger,

Hon. Allen W. Dulles,

Director Central Intelligence Agency,

Washington, D. C.

Miss June Welsh Echols

STAT

Dear Miss Echols:

Mr. Dulles has asked me to acknowledge and thank you for your letter of 1 December.

Mr. Dulles regrets very much that he is unable to help you in your study as he has not kept abreast of the genealogy of the Welsh family. However, your thoughtfulness in writing to him about this is indeed appreciated.

Sincerely,

STAT

December 1, 1960.

Central Intelligence Agency
Washington, D.C.

Dear Mr. Dulles,

As an interested student of genealogy I would like to establish whether or not there is any relationship existing between us. I am of the tenth generation of Welshes in this country (from England) and directly descended from Colonel John Welsh, "Gentleman", of Anne Arundel County, Maryland. Captain John Welsh III was active in the Revolutionary War. He married Hannah Hammond one of the heirs of the Hammond - Harwood House in Annapolis. His grandson, one of many, married Lydia Warfield, relative of the now Duchess of Windsor. I would be interested to know about your ancestors. There is a book, now out of print, "Genealogy of the Welsh and Hyatt Families and their Kin Of Maryland, Giving The Colonial Generations" (subtitle) the title, "Welsh Hyatt and Kindred". Perhaps I could enlist your aid in finding this book. It was printed in 1928 by the Lambert Moon Printing Co. in Independence, Missouri. I wrote to them about it but received no answer. I am interested in beginning a new genealogy and bringing it up to date but need this old one to build on. It was written by Luther W. Welsh, A.M., M.D., Kansas City, Mo. I know that you are quite busy and have many grave responsibilities. If your busy schedule permits a reply I will be most grateful.

Sincerely yours,
June Welsh Echols
